First name	Last name	(+971) United Arab Emirates	
Address line 1		(+93) Afghanistan	
Address line 2 (optional	)	(+1268) Antigua and Barbuda	
Suburb		(+1264) Anguilla	

## NOTE : IF YOUR PAYMENTS ARE FAILING

- Ask us to change the Quote "currency" to local currency since paypal allows payments in local currency only.
- What is local currency? Local currency is the currency of the country where you created your paypal account (since paypal accounts are country specific) or the bank's country which issued your credit/debit card if you are using guest checkout flow without logging into your paypal account.

(Eg: A client whose paypal account was created in Australia will have higher success rates if the quote is in AUD. Similarly a US credit card holder (when guest checkout flow is used without logging into your paypal account) will have higher success rate if the quote is in USD.)

We currently support 4 currencies namely AUD, USD, GBP and EUR. If we don't support your currency, ask us to quote in USD for better success rates
